

TruCode Marks Ten Years in the Medical Coding Software Market *Company offers top 10 ways to boost medical coding productivity*

ALPHARETTA, GA. (September 15, 2015) – [TruCode](#) is proud to celebrate ten years of delivering encoding solutions that increase coder productivity and accuracy. TruCode provides an encoder application, components and web services to healthcare providers, consultants and healthcare IT companies. Since its inception a decade ago, TruCode’s year-over-year growth has exceeded 25 percent. Today, TruCode solutions are used by more than 1,800 professionals in more than 450 healthcare organizations.

To celebrate ten years in the marketplace, TruCode created a list of the “Top 10 Ways to Boost Medical Coding Productivity.” View the infographic here: [Infographic](#).

As a leader in the medical coding software market, TruCode became the first company to offer complete encoder capabilities via web services in January 2013. Since then, TruCode has become the go-to technology partner for computer assisted coding (CAC), clinical documentation improvement (CDI), HIS and EMR companies looking to integrate encoding capabilities. This month, TruCode’s premier solutions will be on display at the [AHIMA Convention and Exhibit](#) from September 26 – 30 in New Orleans, LA. TruCode will be offering demos at booth #430.

“As a niche company, we are proud of the immense impact we have made on our customers over the years,” said Tom Golden, co-founder and CTO of TruCode. “As we grow, we look forward to continuing to deliver the best coding tools and support to the marketplace.”

As a company made up of HIM professionals, TruCode prides itself on delivering an encoder that works the way coders think. According to TruCode customer Julie Kelly, RHIA, manager of Medical Records at Dr. John Warner Hospital in Clinton, Ill., “During several busy months with unusually high volumes, we were able to sustain productivity and keep up with turnaround times with TruCode’s technology. We estimate a 10 to 20 percent increase in coder productivity, increased coder accuracy and improved employee satisfaction. We are proud to be partners with TruCode and wish the team a happy tenth anniversary.”

“Our team of coding professionals has always preferred using the TruCode encoding solution. We have not only found TruCode to be responsive to our coders’ suggestions, but they also promptly address our clients’ needs,” said Rose Dunn, chief operating officer at First Class Solutions. “I have known the TruCode leadership for more than 20 years and have confidence in them doing the right thing for our clients and for us. Congratulations on your tenth anniversary!”

About TruCode

TruCode is an innovator in the medical coding software market and provides an [encoder application](#), components and web services to the hospital, consulting and Healthcare IT marketplace. Headquartered in Alpharetta, GA, TruCode was the first vendor to release a complete ICD-10-CM encoder and deliver encoder components via web services. [TruCode’s Encoder Essentials](#) fully integrate into healthcare IT technologies including Computer Assisted Coding (CAC), Clinical Documentation Improvement (CDI), Electronic Medical Records (EMR), Health Information Systems (HIS) and Healthcare Business Analytics.
