MEDHOST Partners with TruCode® to Provide Advanced Encoder Technology

FRANKLIN, Tenn. – **February 15, 2016** – MEDHOST, a provider of market-leading enterprise, departmental and healthcare engagement solutions has partnered with TruCode®, a top provider of encoder technology. This partnership allows TruCode to offer its advanced knowledge-based encoder to MEDHOST customers through the company's inpatient electronic health record (EHR).

With TruCode's Encoder, MEDHOST customers can experience enhanced efficiency, full ICD-10 support, improved coding accuracy along with many valuable features that put critical references and coding advice at coders' fingertips. Additionally, the solution can help prevent claim denials due to coding errors and also help facilitate:

• Enhanced coding productivity

• Accelerated billing cycle

• Appropriate and accurate reimbursement

• Rapid validation of codes assigned via computer-assisted coding (CAC) software

"Our goal is to deliver an excellent coding experience to MEDHOST customers that results in increased revenue and enhanced control of their coding and auditing workflows." said Mike Mulligan, Managing Partner for TruCode.

MEDHOST customers who are utilizing TruCode are already experiencing greater results with the workflow acceleration and enhanced accuracy it provides. "The TruCode Encoder is so easy to use," said Barbara Myers, Manager of HIMS at Carrus Hospitals, located in Sherman, Texas. "Having coding references and advice at our fingertips help in choosing the right code quickly and accurately."

"MEDHOST is committed to continually introduce and offer solutions to our customers that can help increase productivity and throughput," said Blair Baker, Vice President of Product Strategy at MEDHOST. "We are looking forward to working with TruCode to help our customers streamline their coding processes and experience fewer denials and audits."

About TruCode®

TruCode (Alpharetta, GA) is an innovator in the medical coding software market and provides an encoder application, components and web services to the hospital, consulting and Healthcare IT marketplace. Its software is used by more than 1,800 professionals in more than 450 healthcare organizations. TruCode was the first to release a complete ICD-10-CM encoder and deliver encoder components via web services. For more information visit: www.trucode.com.
